

# West Interlake Watershed

## 2 BILLION TREES APPLICATION

Name \_\_\_\_\_ Date \_\_\_\_\_  
Address \_\_\_\_\_ Email \_\_\_\_\_  
Phone \_\_\_\_\_ Subdistrict \_\_\_\_\_

Legal Land Description of Project Site(s) \_\_\_\_\_  
\_\_\_\_\_

Is the land owned or rented? ☐ Owned ☐ Rented ☐ Crown

Current land use of site? \_\_\_\_\_

**\*\*Please select the type of planting project you are interested in:**

☐ Shelterbelt ☐ Riparian Buffer ☐ Food Forest  
☐ Ecobuffer ☐ Underplanting ☐ Reforestation/Afforestation

Purpose of the planting project? \_\_\_\_\_

**\*\*Please select any site limiting factors:**

☐ Plant Competition ☐ Excess Moisture ☐ Herbicide Drift  
☐ Soil Compaction ☐ Lack of Moisture ☐ Wildlife Browsing Pressure  
☐ Salinity ☐ Livestock

**\*\*The following is a personal checklist for your application:**

☐ Map of Project Area ☐ Project Budget ☐ Seedling Requirements  
☐ List of Obstacles on Site ☐ Pictures of Project Site ☐ Actions to Overcome Site  
☐ 180+ Seedlings to be Planted ☐ Project Schedule (Timeline) ☐ Limiting Factors (Above)

# West Interlake Watershed

## 2 BILLION TREES TIMELINE

Site Inspection - The WIWD representative will inspect the site in person, or request photos in order to assess site limitations.

Date \_\_\_\_\_

☐ In Person

☐ Photos

---

Seedlings Ordered - Differentiate the type of tree stock you will be planting, and indicate below.

Date \_\_\_\_\_

☐ Plug Seedlings

☐ Bare Root

☐ Cuttings

---

Site Preparation - Prior to Planting - It is detrimental that soil is worked, to ensure likelihood of seedling survival. Glyphosate is a personal choice. Be aware of the impact it may have on seedlings. Mulching is very important in order to limit competition, whether plastic or hemp composition. Mulch can be laid prior to or post-planting.

Date \_\_\_\_\_

☐ Tilled

☐ Glyphosate

☐ Laid Plastic Mulch

---

Planting - It is important to plant the seedlings securely with no air pockets. Be sure to water immediately after planting. If you are also placing drip irrigation or a mulch layer to reduce competition, please indicate below.

Date \_\_\_\_\_

☐ Planted & Watered

☐ Drip Irrigation

☐ Plastic/Hemp Mulch

---

Maintenance - Maintenance is one of the most important aspects of tree survival. Please carry out all maintenance practices listed below. These practices should occur multiple times per year during the first few years of seedling establishment.

Date \_\_\_\_\_

☐ Mowing

☐ Watering

☐ Seedling Inspection

---
